## Submit Vet Consult

Upon completing the review of the submission, reviewers can submit their review decision in RAMP. This guide will teach users how to complete the review and move the submission forward in RAMP.

If there are questions that the reviewer needs answered by the research team before recording a decision, request submission clarifications. Please see the *Request Clarification* guide in the IACUC Reviewer curriculum for more details.
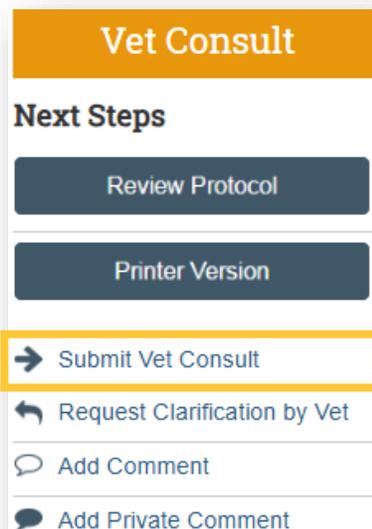

Submitting a Vet Consult

After the protocol team has completed any clarification requests and responded to all required reviewer notes, the review is ready for submission.

Navigate to **My Inbox** and select the name of the submission to open it.

Select **Submit Vet Consult** on the left side of the submission workspace.

If required, add any comments and attach documents related to the review.

Indicate whether, in the opinion of the reviewer, the submission is acceptable as it is currently written.

1. * Do you accept the submission?
○ Yes ○ No Clear

2. Comments: ❓

Select **OK**. The submission returns to the IACUC coordinator.
